PROFILE

Hello ,I am Furkan Dogan

Erzurum Technical University 4. I'm a classroom student. I am interested in artificial intelligence as an area of interest. I am trying to improve myself in this field by choosing courses such as deep learning, artificial intelligence, image processing in my elective courses. I have developed projects in various fields and various lesson. I am currently actively involved in a project.

EDUCATION

Sep 2018 – Jun 2023
ERZURUM, TURKEY

COMPUTER ENGINEERING
ERZURUM TECHNICAL UNIVERSITY 📄

EXPERIENCE

Jul 2021 – Aug 2021

INTERN | BADIWORKS

Among the participants exceeding 40 thousand, I earned the right to an internship by achieving success in an education that lasted 12 days and consisted of 12 exams. As part of the internship, I created a Management Project on how Deep Learning Logic can work in autonomous vehicles and how autonomous vehicles can learn from human driving using deep Learning.

PROJECTS

GENDER RECOGNITION, DECISION TREE VS RANDOM FOREST 📄

- Comparison of accuracy rates using Decision Tree Classification and random forest classification.

ANIME RECOMMENDATION, THE ANIME RECOMMENDATION ALGORITHM 📄

- Anime recommendation algorithm with KNN Algorithm.
